Project 1

Assessment and Accountability-Technology Skills and Learning

Objective:

- Enhance the capacity of the SEA in assessing students' technology skills and ability to use technology effectively for learning.

Project 2

Highly Qualified Staff-Technology Integration Specialists

Objective:

- Enhance the capacity of the SEA to train and support Special Education Technology Integration Specialists cadre, and the Technology Integration Specialists cadre to address special education and additional technology issues identified in NCLB and AYP.

Project 3

Highly Qualified Staff-SEA Utilizing Technology

Objective:

- Enhance the capacity of the SEA to deliver district/school/student achievement data/findings in relation to the state technology plan via digital presentations to State Board of Education, districts and other WVDE departments.
